

Contraceptive implant theory training for doctors – 2020/21

SHQ (Sexual Health Quarters)

The contraceptive implant offers the convenience of highly effective contraceptive protection for three years. The insertion and removal techniques are easy to learn, but to minimise possible complications it is important that they are done correctly.

SHQ is pleased to offer theory training workshops for doctors to begin to become approved contraceptive implant inserters. It is highly recommended that several initial insertions and removals are performed under supervision by a competent inserter, ideally within the health professional's own workplace.
